"LOGIC WILL GET YOU FROM A TO B. IMAGINATION WILL TAKE YOU EVERYWHERE"
ALBERT EINSTEIN

Dear Parents and Grandparents, hope you all had a lovely week!

We are delighted to welcome Galit into TLC! She will be working on a full time basis and is greatly looking forward to working with your children! **WELCOME GALIT!**

Now that the Mishkan has been built and completed, we told the children that the parsha of Vayikro begins with Hashem speaking to Moshe in the Mishkan. Hashem tells Moshe of the korbanos - the sacrifices that were an important part of the service in the Mishkan. In this Parsha we learn about various types of korbanos. Of course, this particular parsha was a little tricky to explain to the little ones so in a nutshell, we explained to them that if they do something that makes someone else feel sad and they understand that they were wrong, they must say sorry and do their very best to be their best self. We explained that it's sad to tell fibs or take something that doesn't belong to them and that honesty is the best policy! We thought this a good opportunity to discuss good manners too as having good manners is very important and we strengthen good manners while children are in our care so children will have a solid foundation on which to grow.

I have super manners. Yes I do.

I can say Pleaseand Thank you too.

When I play with friends, I like to share.

That's the way I show I care!

(to the tune of 'I'm a Little Teapot)

To coincide with the Sedra of the week we explained to the children about saying nice things and how to be nice. They had a poster in the shape of a bumble bee" with the heading 'Bee Nice'. They took in turns to

spin a bottle, and when the bottle stopped the child to where the bottle was pointing had to say a kind word or build a kind sentence and then a teacher would write what they said onto the poster labelled with their name! **WHAT GREAT CIRCLE TIME FUN CHILDREN!**

Today, to coincide with our 'under the sea' topic the children had to make 'Funny Fish Crackers' out of ingredients! Once again they had a template to look at and had to use those important concentration and
